FEDERAL SUPPLY SERVICE

AUTHORIZED FEDERAL SUPPLY SERVICE PRICE LIST

On-line access to contract ordering information, terms and conditions, up-to- date pricing, and the option to create an electronic delivery order are available through GSA Advantage! a menu-driven database system. The INTERNET address for GSA Advantage! is: GSAAvantage.gov.

Schedule Number: Class 84 - Law Enforcement and Security Equipment

Contract Number: GS-07F-234AA

Contract Period: 04/23/2013 – 04/22/2023

For more information on ordering from Federal Supply Schedules click on the FSS Schedules button at fss.gsa.gov.

Contractor: Strike Industries Corp.
2842 South Fairview
Santa Ana, CA 92704
Phone Number: (714) 557 – 9831
Fax Number: (714) 242 – 1585

Web Address: <http://www.strikeindustries.com/>

Point of Contact: GSASALES@strikeindustries.com

Business Size: Small

Customer Information:

1a. Awarded Special Item Number: 426-1A

1b. Lowest Priced Item:

SIN #	MODEL #	Description	GSA Price
426-1A	SI-AR-SHIM-.223/5.56	SI-AR-SHIM-.223/5.56	\$2.77

1c. Hourly Rates: N/A

2. Maximum Order: \$ 800,000.00

3. Minimum Order: \$ 100.00

4. Geographic coverage: 50 United States and US Territories

5. Production Point: New Taipei City, Taiwan and U.S.A

6. Discount from List Prices: Federal Government price is list price minus 24~61% discount.

7. Quantity Discounts: 3% for quantities of 100+ or 300+ depending on the products. Additional 1% for orders of \$80,000+

8. Prompt Payment Terms: 1% 20 days, NET 30.

9a. Government purchase cards are accepted at or below the micro-purchase threshold. Commercial credit cards are accepted in full.

9b. Government purchase cards are accepted above the micro-purchase threshold. Government purchase cards are accepted in full.

10. Foreign Items: JTech and Some of Strike Industries Products are manufactured in Taiwan.

11a. Time of Delivery: 10-90 DARO.

11b. Expedited Delivery: All items are available for expedited delivery based on stock at the manufacturer.

11c. Overnight and 2-day Delivery: Overnight or 2-day deliveries are available.

11d. Urgent Requirements: The Contractor will note in its price list the “Urgent Requirements” clause of its contract and advise agencies that they can also contact the Contractor’s representative to affect a faster delivery.

12. F.O.B. point: F.O.B. Destination.

13a. Ordering Address: Strike Industries Corp. 2842 South Fairview Street, Santa Ana, CA 92704

13b. Ordering Procedures: For supplies and services, the ordering procedures, information on Blanket Purchase Agreements (BPAs), and a sample EPA can be found at the GSA/FSS Schedule homepage (fss.gsa.gov/schedules). Contractor is to simply include this statement as item 13b.

14. Payment Address: Strike Industries Corp. 2842 South Fairview Street, Santa Ana, CA 92704

15. Warranty Provision: Warranty terms are standard commercial warranty for a period of 2 years date of purchase.

16. Export Packing Charges: N/A

17. Terms and Conditions of Government Purchase Card Acceptance: Standard terms and condition as any credit card purchase.

18. Terms and Conditions of Rental, Maintenance, and Repair: N/A

19. Terms and Conditions of Installation: N/A

20a. Terms and Conditions of Repair Parts Indicating Date of Parts Price Lists and any Discounts from List Prices: N/A

20b. Terms and Conditions for any other Services: N/A

21. List of Service and Distribution Points: N/A

22. List of Participating Dealers: N/A

23. Preventive Maintenance: N/A

24a. Special Attributes Such as Environmental Attributes: N/A

24b. Section 508 Compliance for EIT: N/A

25. DUNS Number: 963244996

26. Notification Regarding Registration in Central Contractor Registration (CCR) Database: Strike Industries Corp
CCR registration is valid through 02/05/13.

426-1A	CTFG	COBRA TACTICAL FORE GRIP	Cobra Tactical Fore Grip The Strike industries cobra grip was developed using innovation and feedback from combat veterans. The cobra grip is made from advanced polymer which is very strong and will definitely take a beating. The shooter can use dif	25.00	10.08
426-1A	SI AK-TRAX1	AK MODULAR / KEYMOD HANDGUARD RAIL – TRAX 1. INCLUDED TWO EXTRA KEYMOD 1913 RAIL SECTION FOR TACTICAL EQUIPMENTS.	The Strike Industries AK TRAX rail system is a modular drop in rail that is versatile, light-weight, and durable. Made from solid T-6 anodized aluminum materials, the TRAX won't add much extra weight to your rifle but it will provide an adaptable platform for the user to mount their accessories. The TRAX can be constructed in a number of configurations to give the user the most selection and control of their hand guard rail. Additionally, by utilizing the keymod system, the	89.00	50.38

			<p>user can place rail sections for accessories at their discretion. The TRAX 2 section is the front rail that covers the gas block. You can choose to utilize just the bottom portion of TRAX 2 and leave the gas block exposed or connect the top portion to complete the entire section. Combining TRAX 1 and TRAX 2 gets you the maximum amount of modularity and real estate for your tactical accessories!</p>

426-1A	SI AR-CW- 223-PRO	AR .223 CRUSH WASHER	AR .223 Crush Washer - 10pcs set Strike Industries offers replacement components for the AR-15 that are made to military specifications. Available in .223 calibers and .308, these high-quality components will provide excellent fit and reliable function	14.95	9.07
426-1A	SI AR-CW- 308-PRO	AR .308 CRUSH WASHER	AR .308 Crush Washer - 10pcs set Strike Industries offers replacement components for the AR-15 that are made to military specifications. Available in .223 calibers and .308, these high-quality components will provide excellent fit and reliable function	14.95	9.07
426-1A	SI AR-UDC-E- 01-223	AR ENHANCED ULTIMATE DUST COVER-STANDARD	The patent pending SI UDC enables users to attach and detach the cover in 5 to 10 seconds with ease (stock dust cover will take more time to remove)! It is constructed of a high-density polymer making it more durable and functional than the traditional dust covers. The Ultimate Dust Cover features an adjustable detent set screw in order to compensate wear on the receiver and increase or decrease opening power (To adjust detent: use small flathead driver and depress the ball detent and adjust	15.95	7.57

			<p>as necessary.). Choose multiple designs to customize your AR!</p> <p>NEW features of the Ultimate Dust Cover Enhanced Version include the added cut-out window on the rod for easy disassemble and that it has been made thinner than the original to be compatible with all AR15 receivers on the market and at the same time makes it even lighter weighing in at only 0.3oz!</p> <p>Additionally, the "True Seal" Lip has been slightly modified to provide an even better seal than ever before!</p> <p>The patent pending UDC-E (Ultimate Dust Cover- Enhanced Version) is the modified version of the original UDC for mil-spec receivers.</p>		
426-1A	SI AR-EPTP	SI ENHANCED PIVOT / TAKEDOWN PINS	<p>Strike industries extended takedown pins and pivot pins are ideal for shooters looking for a custom look and that run multiple upper receivers off of a single lower. Made out of Precision-Machined Steel. This is a replacement for the standard AR15/M16/M4 takedown pins and fits most of AR standard and billet receivers.</p>	13.95	7.56
426-1A	SI EMP+5	ENHANCED MAGAZINE PLATE FOR PMAG-GEN. 3	<p>The Strike Industries Extended Magazine Plate (E.M.P.+5 for the PMAG M3) design provides smoother, faster magazine reloading, and handling. It provides multiple functions to include additional 5 round capacity.</p>	11.95	6.30
426-1A	SI AK-EPG	AK ENHANCED PISTOL GRIP	<p>An upgrade for AK-pattern pistol grip, Strike Industries introduces the AK-EPG (AK Enhanced Pistol-Grip). With an aggressive SI texture for positive weapon control it's designed to improve ergonomics and performance. The AK-EPG is constructed of reinforced polymer and features a hollow core for extra storage. The AK Enhanced Pistol Grip is an exciting addition to the AK platform.</p>	18.95	11.59

426-1A	SI AK-SA	AK TO AR STOCK ADAPTER	Our stock adapter allows for the replacement of any standard fixed AK stock to be converted to accept an AR buffer tube assembly. This adapter is easy to install without any modifications to your AK. With no need to permanently alter the stock tang as it fits inside the adapter and tube. This product will take your AK into the twenty first century with the looks and the adjust-ability of a M4. We also incorporated QD (quick disconnects) on both sides of the AK stock adapter. This is a must have for any Mikhail Kalashnikov enthusiasts.	29.95	17.63
426-1A	SI AR-UDC-E-308-01	AR ULTIMATE DUST COVER-STANDARD FOR .308	The patent pending SI UDC enables users to attach and attached and detach the cover in 5 to 10 seconds with ease! It is constructed of a high-density polymer making it more durable and functional than the traditional dust covers. The Ultimate Dust Cover features an adjustable detent set screw in order to compensate wear on the receiver and increase or decrease opening power (To adjust detent: use small flathead driver and depress the ball detent and adjust as necessary.). Choose multiple designs to customize your AR!	16.95	8.56
426-1A	SI AR-EBC	S.I. ENHANCED BOLT CATCH	The SI Enhanced Bolt Catch is another piece in our line of high-quality parts for the AR15. The SI AR-EBC features an extra wide bolt catch lever surface making its operation effortless. Its solid construction and clean matte black finish make it a great looking replacement or build project. It's a great value for an essential item. If you need the parts to keep your AR in top shape, look no further than S.I.	13.95	8.93
			The new SI M-Lok Rail Covers are an exciting new addition to the Strike Industries product line. The M-Lok Covers provide ultimate placement options being single pieces meaning, without having to cut to size, you can plug any M-Lok slot		

426-1A	SI MLOK-COVER-01	MLOK-COVER - 5PCS VER. 1	you need and still have the useable slots open for your accessories and at the same time provides more dexterity for positive weapon control with the aggressive texturing. The SI M-Lok Covers are made from impact resistant nylon reinforced polymer for durability and long-term use. If you have an M-Lok Rail, Strike Industries has you covered!	7.95	4.74
426-1A	SI MLOK-COVER-02	MLOK-COVER - 5PCS VER. 2	The new SI M-Lok Rail Covers are an exciting new addition to the Strike Industries product line. The M-Lok Covers provide ultimate placement options being single pieces meaning, without having to cut to size, you can plug any M-Lok slot you need and still have the useable slots open for your accessories and at the same time provides more dexterity for positive weapon control with the aggressive texturing. The SI M-Lok Covers are made from impact resistant nylon reinforced polymer for durability and long-term use. If you have an M-Lok Rail, Strike Industries has you covered!	7.95	4.74
426-1A	SI DR-308	DUMMY ROUNDS 308	Strike Industries dummy rounds will let you safely test the feeding, extraction, and magazine function of your firearms without the worry of accidental discharge. They also let you dry fire without risking damage to the firing pin. Great training tool for safe handling of any of the most popular firearms calibers. This will aid in keeping your fundamentals sharp and keep the cost down on practice. Made out of polymer material so it can't corrode or cause corrosion to any of your firearms.	8.00	4.53
426-1A	SI-LINK-CFG-BK	SI LINK Curved ForeGrip - Black	The Strike Industries LINK-CFG (Curved Fore Grip) design was derived from our Cobra Tactical Fore Grip and features SI's (patent pending) LINK system which is mountable to both M-Lok and Keymod rails. The LINK-CFG is constructed of 6061T6 aluminum-	37.95	26.20

			<p>making it ultra-durable for continued use. Using these grips, shooters can apply different techniques to adapt to various scenarios: At the front, a ridged face allows a shooter to brace the rifle without worrying about the grip moving around. At the rear of the grip, the curve can be used as a hand stop. The innovation in this grip will keep you happily stabilized throughout your shooting experience.</p>		
426-1A	SI-AR-FWS-C	AR Carbine Flat Wire Spring	<p>The SI Carbine Flatwire Spring is an economical, easy upgrade to any AR system with a carbine buffer system. The flatwire spring increases service life of the platform, smooths out the shooting cycle, and greatly outlasts the stock spring. Increased bolt load, in addition to decreased compression force increases reliability in cycling. Additionally, all SI Flatwire springs are cryogenically stress relieved to provide greater consistency, longer spring life, and greater resilience to high cyclic rates. At a cost not much greater than stock carbine springs, the SI Flatwire is an easy option for those either looking to replace worn buffer springs or begin new builds.</p>	19.95	12.59
426-1A	SI-AR10-FWS	AR 10 Flat Wire Spring	<p>The SI Flatwire Spring for is an economical, easy upgrade to any .308 AR system. The flatwire spring increases service life of the platform, smooths out the shooting cycle, and greatly outlasts the stock spring. Increased bolt load, in addition to decreased compressing force increases reliability in cycling. Additionally, all SI Flatwire springs</p>	21.95	13.60

			are cryogenically cycled to provide greater consistency, longer spring life, and greater resilience to high cyclic rates. At a cost not much greater than stock carbine springs, the SI Flatwire is an easy option for those either looking to replace worn buffer springs		
426-1A	SI-TC-Comp-223/5.56	SI-Triple Crown-223/5.56	The Strike Industries Triple Crown-Comp features a three-chamber design, which was engineered to reduce felt recoil and help reduce muzzle rise with the top gas ports. To top it off, the TC-Comp features an aggressive crowned leading edge to be used for self-defense or support for wire cutting capability. The SI Triple Crown-Comp is a great alternative if you're looking for a cross between a compensator and a muzzle brake or effective "combination" muzzle device. If you are interested in a blast shield be sure to check out our combination product page with the FF-CRD offering for this device!	44.95	29.22
426-1A	SI-SARS	Strike Advanced Retention System	The sling in all its forms, 1 point, 2 point, and even 3-point configurations has served an admirable job in making it easier to carry our long guns, but are not without their drawbacks, chief among them, bulk, tangle risks, and the need to use two hands to use them. With Strike Industries' Advanced Retention System allows one to apply fast, secure retention in all directions while maintaining a low profile. (recommended ordering SI AMBUSH SL for rail attachment to mount QD stud.)	139.95	91.68
426-1A	SI-AR-XBC	Strike Industries Extended Bolt Catch	The SI-XBC Extended bolt catch is a heavy duty, "go-fast" addition to the SI line of enhanced parts. Under high stress situations, the oversized bolt release lever aides in rapid thumb or palm engagement, even with gloved hands. The lever is	14.95	8.56

			reinforced for increased durability and impact resistance.		
426-1A	SI-JCOMP2-308/7.62	JAPAN TYPE89 COMP 2.0 for .308/7.62 caliber	The SI JCOMP 2.0 is the classic Type 89 compensator re-engineered and updated for the 21st century. Due to end user feedback, the favorite features of the original are retained, but the J Comp now features increased muzzle rise compensation, and is available in 7.62x39mm and .308/7.62x51mm in addition to 5.56x45/.223. Now also compatible with Oppressor and FerFrans concussion reduction devices.	39.95	24.18
426-1A	SI-AR-STRIKERAIL-07-BK	Strike Rail-07-BK	The SI Strike Rail was developed to fulfill the requirements of certain agency partners, who wanted a lightweight, but feature packed rail that they could depend on when entering harm's way. In service of this mission, we bring to you, the new SI Strike Rail. Lightweight, high strength, everything you need, and nothing you don't.	144.95	89.67
426-1A	SI-AR-STRIKERAIL-10-BK	Strike Rail-10-BK	The SI Strike Rail was developed to fulfill the requirements of certain agency partners, who wanted a lightweight, but feature packed rail that they could depend on when entering harm's way. In service of this mission, we bring to you, the new SI Strike Rail. Lightweight, high strength, everything you need, and nothing you don't.	154.95	95.71
426-1A	SI-AR-STRIKERAIL-13.5-BK	Strike Rail-13.5-BK	The SI Strike Rail was developed to fulfill the requirements of certain agency partners, who wanted a lightweight, but feature packed rail that they could depend on when entering harm's way. In service of this mission, we bring to you, the new SI Strike Rail. Lightweight, high strength, everything you need, and nothing you don't.	169.95	105.79

426-1A	SI-AR-STRIKERAIL-15.5-BK	Strike Rail-15.5-BK	The SI Strike Rail was developed to fulfill the requirements of certain agency partners, who wanted a lightweight, but feature packed rail that they could depend on when entering harm's way. In service of this mission, we bring to you, the new SI Strike Rail. Lightweight, high strength, everything you need, and nothing you don't.	179.95	110.83
426-1A	SI-AR-STRIKERAIL-17-BK	Strike Rail-17-BK	The SI Strike Rail was developed to fulfill the requirements of certain agency partners, who wanted a lightweight, but feature packed rail that they could depend on when entering harm's way. In service of this mission, we bring to you, the new SI Strike Rail. Lightweight, high strength, everything you need, and nothing you don't.	189.95	116.87
426-1A	SI-VIPER-PDW-BK	SI-VIPER-PDW-BK	The Strike Industries Viper PDW stock represents the pinnacle of ultra-compact PDW systems. At the compressed position, the compact Viper PDW allows for effortless maneuverability particularly in close quarters and vehicular operations. With the press of a button, the rapid deployment system instantly springs to the extended position for greater shot stability. Previous PDW systems for ARs have been notorious for expensive proprietary systems, spotty reliability and poor ergonomics. The Viper Stock is designed to be able to drop into your existing platform. The buffer system is carefully engineered to provide for high reliability while allowing for the use of standard bolt carriers, allowing for multi-role use with a single system. The included flat wire spring increases bolt load despite the compact dimensions for greater reliability, even in extreme short barrel configurations. In addition to mechanical reliability and performance, we at Strike Industries have also paid close attention to human factors to increase comfort and	274.95	190.42

			<p>controllability. The low footprint shoulder weld is shaped to conform to the shoulder pocket for maximum stability and control even in compromised or unconventional shooting positions. Included with the Viper PDW is an optional rubberized cheek rest aids in maintaining repeatable cheek weld.</p>		
426-1A	SI-VIPER-PDW-FDE	SI-VIPER-PDW-FDE	<p>The Strike Industries Viper PDW stock represents the pinnacle of ultra-compact PDW systems. 426-1A	SI-REX	Reflex Exoskeleton	<p>Reflex Exoskeleton - Compact, lightweight, and rugged, the Reflex Exoskeleton provides extreme protection for a wide variety of reflex optics. The patent pending Universal Mounting Pattern enables users to attach various optics of their choice. Included mounting posts securely hold your optic firmly in place. The shield is precision cut and made from steel with a QPQ black finish while the universal mount is hard anodized black. Included with the Exoskeleton, is a lightweight, low profile Picatinny mount that can be used stand alone to save weight. Combined, they offer the highest degree of protection from impacts and shock. At just over 2.5 oz total, the Strike REX is a low-profile, minimalist, must-have accessory for your reflex optics.</p>	44.95	29.22
426-1A	SI-DR-AL-223-BLU	Aluminum Dummy Round 5.56	<p>Aluminum Dummy Round 5.56- The SI Aluminum Dummy round is a precision machined billet aluminum dummy round that serves as a vital part of your training kit. Anodized a bright blue to prevent confusion with live rounds, it serves as a realistic, but safe way to dry fire practice. The flexible polymer “primer” serves to protect your firing pin during high iteration dry fire practice sessions and replicates the feeding and extraction characteristics of live rounds, which is particularly useful for “ball and dummy” drills. Additionally, for magazine lock restricted states; it can serve as a safe tool for “bullet button” type magazine locks, as repeated use of a live round can set back of the projectile, creating dangerous case pressures</p>	9.95	5.54
426-1A			<p>Aluminum Dummy Round 9mm- The SI Aluminum Dummy round is a precision machined billet aluminum dummy round that serves as a vital part of your training kit. Anodized a bright blue to prevent confusion with live rounds, it serves as a realistic, but safe way to dry fire</p>

426-1A	SI-OPPRESSOR	Strike Industries Oppressor	Strike Industries Oppressor-The Strike Industries Oppressor represents the next evolution in concussion reduction devices. Typical concussion reduction devices simply sleeve the brake, with a simple open end to redirect gasses. The OPRESSOR is compatible with the SI muzzle devices to include: Venom-FH, Checkmate Comp, King Comp, MK-9 Comp, J-Comp Gen2, Sierra Comp, and Triple Crown Comp. While this does accomplish reducing side concussion, braking performance becomes reduced as well. Designed with computer aided flow dynamics, the SI Oppressor provides a no compromise solution for redirecting the overpressure produced by aggressive brakes and compensators. Advanced internal geometry actively draws the gasses out and thrusts the gasses forward through vents to accomplish linear braking in order to retain more braking efficiency. Using a proprietary quick detach mounting system, the Oppressor can be rapidly installed before transitioning to prone shooting positions, or for indoor use.	105.95	66.50

426-1A	SI-JCOMP2-.223/5.56	JAPAN TYPE89 COMP Gen2 .223/5.56	The SI JCOMP 2.0 is the classic Type 89 compensator re-engineered and updated for the 21st century. Due to end user feedback, the favorite features of the original are retained, but the J Comp now features increased muzzle rise compensation, and is available in 7.62x39mm and .308/7.62x51mm in addition to 5.56x45/.223. Now also compatible with Oppressor and FerFrans concussion reduction devices.	39.95	24.18
426-1A	SI-BM4-HAYL-RAIL-BK	Strike Industries Hayl Rail Mlok Handguard for Benelli M4 in Black	The Benelli M4 is the gold standard of autoloading combat shotguns. Although rugged, reliable, and popular the world over with military, law enforcement and civilian personnel, the M4 has seen very little in the way of innovation and upgrades since its introduction in 1999. Strike Industries updates the platform with the industry first MLOK handguard to take advantage of the latest in tactical lights and accessories to enhance the functionality and ergonomics of the legendary weapon system.	124.95	80.60
426-1A	SI-ATVM-ULTRA	Strike Industrial Anti Venom ULTRA Gun Oil - 4oz	Introducing the next level of our AntiVenom line of weapons maintenance solutions: AntiVenom Ultra. Powered by XPLC, AntiVenom ULTRA is a heavy-duty lubricant for extreme environments, optimized for the most demanding select fire and suppressed automatic weapon systems. An ionized molecular complex bond to metallic microstructures, migrates towards friction zones, and withstands high pressures and operating temperatures. A higher viscosity and film strength serve to increase surface tenacity and boundary thickness. Maximum friction reduction is achieved between -60°F and 550°F. However, when applied to a weapon recently cleaned with XPLC, ULTRA is capable of temporary performance in environments from -80°F to 810°F. Like XPLC, ULTRA is	10.95	7.05

			hydrophobic, and wood and polymer safe.		
426-1A	SI-ATVM-ULTRAx36	Strike Industrial Anti Venom ULTRA Gun Oil - 4oz x36 bottles	<p>Introducing the next level of our AntiVenom line of weapons maintenance solutions: AntiVenom Ultra. 426-1A	SI-G-GPT	Strike Industries Grip Plug Tool for Glock	<p>The Strike Industries' Grip Plug tool for Glock pistols is a field expedient toolkit that pulls double duty as a magazine ramp when installed. As reliable as Glocks are, we know that sh*t happens, and when it does, Strike Industries has the perfect paddle to get back down that proverbial creek. Featuring a stainless-steel punch, with a reverse flathead to help with disassembly, and an oil reservoir, this handy tool has what you need to get your gun back up and running (replacement broken parts not included). When not needed, the Grip Plug Tool functions as a handy magazine ramp to help smooth out reloads and the low profile ensures it stays out of the way. Important Disclaimer: For Glock Gen 3 models (ONLY) 17,19,22,23,31,32,34,35. NOT</p>	\$9.95	\$5.04

			for Gen 4/5/19X models Also Compatible with P80 PF940C. Minor sanding and hand fitting is required for magazines to be able to drop freely with COMPACT models (19,23,32).		
426-1A	SI-AR-LPGB	Strike Industries AR Enhanced Low Profile Steel Gas Block	The Strike Industries Enhanced Steel Gas block combines form and function to bring you a cost effective, robust, but lightweight gas block. Designed to fit under nearly any hand guard, the low-profile gas block is a must have when running extended length free float set ups. The faceted design not only is cosmetically attractive, but the geometry adds strength where it is the most critical, while the skeletonized form factor saves weight.	\$29.95	\$17.13
426-1A	SI-LINK-AQD-BK	Strike Industries LINK Angled QD Mount in Black	Compatible with both KeyMod and MLOK, our Link Angled QD mount offers a natural push and pull installation/removal alongside the rail at 30 degrees instead of driving the QD socket 90 degrees flat into the rail. Once installed, the Link Angled QD retains an unobtrusive angle while slung to avoid binding with other firearms accessories and support hand while in the firing position.	\$24.95	\$14.11
426-1A	SI-AR-LINK-HSK	Strike Industries LINK 3 pieces of Hand Stop Kit	Modern handguard grips have come a long way. They enhance the shooters skills through better recoil management and ease of indexing repeatability for speed. But one grip style may not be suited for everybody, and sometimes rail space is limited so just a hand-stop can fit. But what if you didn't have to settle for just one grip style? Introducing the Strike Industries Hand Stop Kit. Gone are the days of having to keep extra hand stops, foregrips, and other grip accessories laying around. Including 3 sections that can work together or as standalone attachments, there are over half a dozen ways to configure the Link hand-stop kit for different shooting styles. The three	\$19.95	\$12.59

			sections are made from durable, reinforced, & heat-resistant polymer. Each section uses a single modified T-nut that has been tried and tested for superior lock-up. The HSK is directly mounted to either M-Lok slots or Keymod holes without the need for adapters in between, resulting in a highly ergonomic and secure lock-up.		
426-1A	SI-DR-AL-12GA-BLU	Aluminum Dummy Round 12 gauge	The SI Aluminum Dummy round is a precision machined billet aluminum dummy round that serves as a vital part of your training kit. Anodized a bright blue to prevent confusion with live rounds, it serves as a realistic, but safe way to dry fire practice. The flexible polymer “primer” serves to protect your firing pin during high iteration dry fire practice sessions and replicates the feeding and extraction characteristics of live rounds, which is particularly useful for “ball and dummy” drills. Additionally, for magazine lock restricted states; it can serve as a safe tool for “bullet button” type magazine locks, as repeated use of a live round can set back of the projectile, creating dangerous case pressures	21.95	12.59
426-1A	SI-AR-VEPG-15	Strike Industries Viper Enhanced Pistol Grip 15	The Strike Industries Viper Enhanced Pistol Grip lineup comes in three different angles to suit any shooter’s needs. Now available with an improved grip texture for more positive handling of the rifle. The grip is more streamlined and tapered where the webbing of the hand goes to allow more range of movement of the firing hand when accessing the controls. It has enough width in the palm area to maximize comfort during extended use. Each grip features a comfortable beaver tail and secure storage underneath with an included rubber endcap.	18.95	11.59

426-1A	SI-AR-VEPG-20	Strike Industries Viper Enhanced Pistol Grip 20	<p>The Strike Industries Viper Enhanced Pistol Grip lineup comes in three different angles to suit any shooter's needs. 426-1A	SI-MK9-COMP	Strike Mini King Comp 9mm	<p>The Strike Industries Mini King Comp 9mm brings the proven performance of the full-size King Comp in a more compact, lighter package designed exclusively for 9mm carbines. The Mini King Comp retains the full range of features of the King Comp in a single chamber format. The large single baffle captures the vented gasses for recoil mitigation. The redirection jets work to stabilize the muzzle end for faster follow up shots while dampening felt concussion on the shooter end to maintain the pleasant shooting characteristics of 9mm carbines. The end of the compensator features the "crown" of standoff/wire cutting tines that gives the compensator its name. While 9mm carbines are known for low</p>	64.95	38.29

			recoil and fast handling characteristics, give yours an extra edge in performance with the SI Mini King Comp		
426-1A	SI-EMP-G9&40	Strike Industries Enhanced Magazine Plate for Glock 9mm/.40 cal	<p>The Strike Industries Extended Magazine Plate for GLOCK 9MM/.40CAL was designed to provide smoother magazine reloading through a slow drag/ no snag design while maintaining maximum magazine capacity with any OEM Glock magazine. The Extended Magazine Plate provides an additional 6 rounds to any 17 Glock magazines in addition to adding plus 5 to any Glock .40 magazine. Included is our special locking plate. Compared to other magazine extension plates on the market, our locking spring plate features a hook design which adds extra locking security to increase the durability of your magazine & extended magazine plate when fully loaded with rounds. Our extended magazine plate provides better gripping and overall control along with increasing the overall efficiency of reloads. Give your GLOCK the extra rounds it deserves with the Strike Industries Extended Magazine Plate GLOCK 9MM/.40CAL.</p>	19.95	11.08

426-1A	SI-CEVO-SA-QD-BK	Stock adapter with QD function for CV EVO in Black	<p>The Strike Industries quick detach stock adapter for the CZ Scorpion EVO 3 is an upgrade to the traditional stock adapter, allowing full height adjustability using the 3 picatinny sections included in the rear of the stock plate. This allows the operator to select from different eye relief positions, and adjust on the go with the included hex screw, simply untighten and slide into the preferred position. Also included is a quick detach point for any sling to be mounted under the stock adapter. The Stock adapter requires no tools to install, and simply slides over the stock adapter detent button to lock into place. Designed to integrate seamlessly into the CZ Scorpion EVO body, having the same beveled lines and contour.</p> <p>Product Features:</p> <ul style="list-style-type: none"> - Intended for use with stocks that incorporate picatinny attached clamps. - Quick detach (QD) feature allows for a sling to be installed with ease. - Fits factory specification - Machined 6061 Aluminum - Picatinny rail section 	\$39.95	\$25.75
426-1A	SI-CLOAK-FH-223/5.56	Strike Industries Cloak Flash Hider - 223/5.56	Strike Industries presents the CLOAK Flash Hider. The improved design is even more compact than our previous VENOM, and disperses combustion more effectively with its intuitive design. With its wider geometry the CLOAK is even more efficient at dispersing gas flow making any flash from the rifle barely visible especially in low light conditions. The Cloak flash hider will significantly	\$39.95	\$23.68

reduce any muzzle flash, so that your night vision won't need to constantly readjust. No loss of Low light or night vision will allow you to quickly follow up on the same target position, and increase your situational awareness whether at the range or out in the field. Crafted from solid 45 C steel for enhanced durability and simply threads on to your barrel, requiring no modification for installation.

*Compatible with the Strike OPPRESSOR Blast Shield

Product Spec:

- Length: 1.732 inches (4.4cm)
- Outer Diameter: 2.2 cm
- Weight: 2 oz
- Materials: Steel 45C
- Color: Black
- Threaded at 1/2"x28 (.223)

Features:

- Aggressive style with advanced design featuring four prongs with serrated points.
- The SI Cloak-FH was engineered to create instant air flow to eliminate gas combustion.
- Long enough to make 14 1/2" Barrel 16" w/pre-drilled hole for pin and welding
- Available in .223
- Wire-Cutter Capable

426-1A	SI-QDSL-STN	Strike Industries Quick Detach Sling swivel Loop - Standard	The Strike Industries Quick Detach Sling Loop is the most revolutionary design for QD attachments to date. With the ability to remove the QD with a single hand the user can easily squeeze the mechanism for the simplest attachment and detachment. Instead of a push button that is tough to disengage, the patent pending side to side mechanism allows for uninterrupted quick attach and detach while the sling is in use. Crafted from 17-4 Stainless Steel and after a quench polish quench process, the durability of the sling loop is greatly increased. The enhanced geometry of the sling loop allows the strap to never pinch, bite, or roll around the interior of the loop allowing for the maximum mobility and comfort in any tactical or training situation.	\$19.95	\$13.60
426-1A	SI-QDSL-MICRO	Strike Industries Quick Detach Sling swivel Loop - MICRO	The Strike Industries Quick Detach Sling Loop is the most revolutionary design for QD attachments to date. The new mechanism is even easier to remove than standard QD sling swivels. The user can still singlehandedly squeeze the mechanism for the simplest attachment and detachment. Instead of a push button that is tough to disengage, the patent pending side to side mechanism allows for uninterrupted quick attach and detach while the sling is in use. Crafted from 17-4 Stainless Steel and after a quench polish quench process, the durability of the sling loop is greatly increased. The triangular option of the swivel loop allows	\$19.95	\$13.60

			comfortable range of movement and rotation for paracord type slings or the more heavy-duty Para Clip from Magpul.		
426-1A	SI-STRIKE-ASM	Strike Adjustable Scope Mount	Strike Adjustable Scope Mount combines four different eye-reliefs into one scope mount. This scope mount can be adjusted to three standard eye-relief positions and one new eye relief position: extended, intermediate extended, and hyper extended. This scope mount is CNC machined from 7250 aluminum and hard anodized in black. Intended for use with Picatinny Rail Section Rifles. The versatility of the Strike Adjustable Scope Mount allows users to adjust the scope away from the shooter or more towards the shooters eye when mounted in reverse, creating flexibility for eye relief.	\$129.95	\$84.63
426-1A	SI-EMP-G43X-BK	SI Extended Magazine Plate for Glock™ 43X	The Strike Industries G43X Extended Magazine Plate (G43X EMP) design provides smoother magazine reloading through its low drag / no snag design. The G43X EMP provides multiple functions, primarily an additional 2 rounds bringing the G43X capacity up to 12 (10 round double stack + 2 with EMP)	\$19.95	\$13.60
426-1A	SI-LINK-ANCHOR	LINK Anchor Polymer Hand Stop FDE	The LINK Anchor Handstop is made from a heat resistant polymer that allows comfortable grip in any shooting condition. It has a low-profile design that allows mounting through any MLOK or KeyMod openings. The unique tooth design	\$14.95	\$8.56

			<p>allows the handstop to be reversible, giving the option for either a "push" or "pull" style grip.</p> <p>With the added ridges on the surface, the LINK Anchor provides unmatched dexterity from your palm to the fingertips. A true lightweight modification that is not only comfortable, has an aggressive look, and will improve accuracy over time by stabilizing your grip.</p>		
426-1A	SI-AR-MIL	Miller Comp .223 /5.56	<p>The Miller Comp is a muzzle device with no compromise. We engineered it to mitigate recoil in the same manner as our JCOMP, but we modified the profile to make it slimmer so that the muzzle device does not need to be removed when installing a gas system onto your barrel. This is a great solution for shooters that prefer to have their muzzle devices pin and welded, all without sacrificing performance! Product Specs are LENGTH 65.96mm, Outer Diameter 17.87mm, WEIGHT 3oz, WEIGHT W/ PKG 3.2oz. The Features of the comp are 2 chamber design greatly increases recoil management, Low profile diameter to fit gas block over when pinned and welded, 1/2"x28 thread pitch, and for .223/5.56mm.</p>	\$89.95	\$60.45
426-1A	SI-LINK-TRI-ADA	LINK Tripod Adapter	<p>The Strike Industries LINK Tripod Adapter utilizes our patented LINK system which allows mounting onto both M-LOK and KeyMod compatible devices. Designed as a cost-effective and intuitive solution geared towards broadening the shooters options relative to supported firing positions. The LINK Tripod Adapter enables easy mounting on almost any tripod plate on the market that uses a</p>	\$24.95	\$15.11

			<p>standard 1/4"-20 threaded screw. Made of 6061-T6 aluminum with a bead blasted hard anodized finish, this LINK Tripod Adapter will enable you to use any standard camera tripod on your next trip to the range.</p>		
426-1A	SI-LINK-ASL	LINK Angled Sling Loop	<p>The Strike Industries LINK Angled Sling Loop utilizes our patented LINK system which allows mounting onto both M-LOK and KeyMod compatible devices. Designed to fit a variety of clip-style attachments, the low-profile and snag-free design of the angled loop (25 degrees) allows for easier ergonomic placement and accessibility. Crafted from SUS630 hardened stainless steel after a quench polish quench (QPQ) process, the durability of the SI Angled Sling Loop is greatly increased. Allow your favorite weapon sling to be slung out of the way of your other firearms accessories and support hand while in the firing position.</p>	\$21.95	\$12.59
426-1A	SI-AR-SHIM-.223/5.56	AR Shim Set for .223/5.56	<p>The Strike Industries AR Shim Set for .223/5.56 or .308 assists in timing and alignment of your muzzle devices for a piece of mind dependable installation. Crush washers are usually a one-time use washer designed to deform and do not guarantee alignment. Shim washers are flat, consistent and should be used whenever bore alignment is critical in applications such as silencer mounts or to ensure your muzzle device ports are correctly positioned. Available in both 1/2"-28 TPI (.223/5.56) or 5/8"-24 TPI (.308) sizes, the Strike Industries AR Shim Set for .223/5.56 or .308 are solid one-</p>	\$4.95	\$2.77

			piece shims made in various precision thicknesses for just about any application.

426-1A	PART-JAM NUT	Jam Nut	The Strike Industries Jam Nut now gives you an easier way to assist in the installation and especially timing of a muzzle device. Thread the Jam Nut onto the barrel followed by the muzzle device. Once you have your muzzle device timed how you want it, turn the Jam Nut until its up against your muzzle device and lock it down. Available in 1/2"-28 TPI (.223/5.56) thread pitch for just about any application. Also a replacement part for the Jam Nut that is included in the Strike Industries Miller Comp.	\$4.95	\$3.02

426-1A	SI-G-LITESLIDE-17-BK	Strike Industries LITE Slide for Glock 17 in Black	<p>The Strike Industries Liteslide for GLOCK™ G17 GEN3 was created with optimal accuracy and performance in mind, perfect for any upgrade or a new custom build. Made in the USA from machined billet 17-4 Stainless Steel using clockwork precision to ensure increased consistency in barrel lockup that results in levels of match-grade accuracy. The SI Liteslide weighs significantly less than the factory production model, reducing the recoil momentum which allows faster and more efficient follow-up placement. The SI Lightslide was proudly designed with durability and function in mind along with the Strike Industries stylings. Large enhanced aggressive front and rear serration areas aid in manipulating the slide to check the chamber or clear a jam. Combined with our Universal Optics Mount cut, you are able to mount most of your favorite optics securely with ease without needing to send your slide out to get machined. Additionally, a removable cover plate is included for your customization preferences. The SI Liteslide comes with all necessary screws and posts needed for most optics.</p>	\$209.95	\$181.35

426-1A	TA03-0809-00-BK	Utility Pouch in BK	<p>This utility pouch work on any belt 1 ½” to 2” (Duty or non-duty) and Molle. The utility the pouch is just under 10 inches in width by 11 ½ inches in length. On the front side of the pouch, there is a 1 ½” by 2” strip of the loop side Velcro stitched for the security strap to attach too. On the back of the pouch, you have a 2” by 2” loop side Velcro stitched in the middle of the pouch so the pouch can be rolled up when not in use. At the bottom of the pouch, there is also a drain hole, because you never know what conditions you will be working in. Inside the Utility, the pouch is something you will not find in most pouches on the market. Two 1 ½” by 9” strips of Velcro on the inside back of the pouch separated by one 2” by 1 ½” piece. The loop (Velcro) inside of the pouch allows for the magazine card(s) to be positioned for support-side retrieval and speed reload of 12-gauge shotgun rounds (or Less-Lethal munitions). OR a double AR-style mag pouch for the rifle operators. All of this while still allowing the dump pouch to be a dump pouch. The munitions/ magazines remain secure against the body side of the pouch allowing</p>	\$24.95	\$16.12

			for room to still hold other equipment (ie. Water bottle, maps, empty/partially empty mags, etc.), your extra mags or shells will stay in the upright position making it easier to grab if needed.		
426-1A	TA03-0810-00-BK	Magazine card in BK	The AR Magazine card is 6 ½" by 4 ¾" and holds 2 mags. On the back of the card is hook Velcro	\$8.95	\$5.54
426-1A	TA03-0811-00-BK	Shotgun shell card in BK	The Shotgun shell card is 6" by 2" and holds six shells. On the back of the card is hook Velcro.	\$8.95	\$5.54
426-1A	SI-CEVO-CH-M	Strike Industries Medium Length Charging Handle for CZ EVO	The Strike Industries Charging Handle for CZ Scorpion EVO (Medium) provides a longer, ergonomic and positive tactile feeling over the original CZ factory charging handle. No more fear of tearing up your knuckles with your fingers being too close to the sides of the top Picatinny rail as you cock the handle. The SI charging handle will ensure more accessibility, even with additional rail accessories like a side mounted weapon light. It's not too big to get in the way and has been designed to reduce the risk of snagging with the rounded edges. Retain the factory ability of being ambidextrous and non-reciprocating. Follow proper CZ instructions on removal and installation to not damage the cocking handle spring and in minutes you will have a quick and easy upgrade for your CZ Scorpion EVO pistol and/or rifle. Made from durable and lightweight polymer reinforced by nylon, the Strike Industries Charging Handle for CZ Scorpion EVO (Medium) will replace	\$15.95	\$10.83

			that little tiny CZ handle and give you more to work with.		
426-1A	SI-CEVO-MR	Strike Industries Magazine Release for CZ EVO	The Strike Industries Magazine Release for the CZ Scorpion EVO is a lightweight, high-strength polymer solution that enables the user to depress the magazine release utilizing only one hand. Whereas the original design requires two hands to disengage a magazine, the Strike Industries Magazine Release has added fins on both sides of the trigger guard that allow the shooter to use their shooting finger to hit the release, freeing the other hand of that burden and allowing for overall faster reloads. Quicker reloads lead to more rounds on target in a shorter amount of time.	\$17.95	\$10.08
426-1A	SI-CEVO-PG	Strike Industries Pistol Grip for CZ EVO	The Strike Industries Pistol Grip for CZ Scorpion EVO is designed with more of a vertical angle (15 degrees) for better ergonomics over the CZ factory grip. Comes with textured palm areas for positive handling of the firearm but also includes a stipple ready border if you want a more grippy feeling. You can custom hand-stipple at home for those do-it-yourselfers or send it out to your favorite stipple. The grip features a comfortable beaver tail and secure storage underneath with an included rubber end cap. Made from durable and lightweight polymer, this drop-in SI Pistol Grip is a perfect pairing with the Strike Industries Selector Switch for CZ Scorpion EVO (sold separately) and will give you improved ergonomics over the	\$19.95	\$11.08

			originally designed CZ factory parts and especially no pinched fingers.		
426-1A	SI-CEVO-SS	Strike Industries Selector Switch for CZ EVO	<p>The Strike Industries Selector Switch for CZ Scorpion EVO is both an ambidextrous and non-ambidextrous package (3-pieces) which allows the shooter to configure the setup needed while adding short but wide easy-to-reach controls. Grooves are designed onto the selector switches to ensure control even in wet conditions. Retain factory ambidextrous controls or use the included optional third piece if you want the selector switch only on one specific side. Made from durable and lightweight polymer, this drop-in SI Selector Switch is a perfect pairing with the 15-degree angle of the Strike Industries Pistol Grip for CZ Scorpion EVO (sold separately) and will give you improved ergonomics over the originally designed CZ factory parts and especially no pinched fingers.</p>	\$13.95	\$8.56
426-1A	SI-Siegen-Cover-BK	Strike Siegen Rail Cover in Black - 5pcs/pk	<p>The Strike Industries SIEGEN Rail Cover adds an innovative way to upgrade your favorite rail/handguard with proper weapon light/laser cable management while providing a positive tactile feeling for M-LOK compatible slots. Rail covers are a quick and affordable upgrade to mitigate any heat transfer between the barrel and the shooters hands. Made of NBR 1052 rubber, it withstands heat up to 320° F. While comfort and protection from heat and sharp edges are already important features, incorporating a cavity that runs parallel to the barrel which</p>	\$12.95	\$7.56

			<p>was intently designed to manage and protect various accessory wires was one of the main focuses of the SI SIEGEN Rail Cover. Take the existing rail covers SI already offers and introduce additional functionality. No wires to cover yet? Don't worry, the SIEGEN rail cover includes cavity inserts which act as a robust placeholder for when you are ready for cables to manage. Need to modify your setup for a certain situation? Easily move these rail cover as you are not limited to a set position or configuration, COMPATIBILITY: M-LOK</p>		
426-1A	SI-G-SIGHTS-SH	Strike Iron Front & Rear sights for Glock - Suppressor Height	<p>The Strike Iron Sights For GLOCK™ (Suppressor Height) give you an elevated sight picture for a red dot or suppressor pistol setup. The front sight sits at 0.357" tall with the rear at 0.372" for an absolute co-witness position with a slide mounted red dot. Designed to help with proper sight alignment and keep the shooter's eyes focused, there is natural light that is seen on both sides of the front sight between the u-notch rear sight. Steps placed in the rear of both sights help angle and reduce unwanted glares or reflections out of your eyes. Lines and angles designed to use natural light reflections and shadow play to keep user's eye aligned and focused on the target. The rear sight is designed with a negative angle so that the shooter will see the back wall as dark as possible to give total focus on the sights. The line running down the middle of the rear sight is there to catch light from above and create a "line" illusion in which the</p>	\$29.95	\$20.65

			<p>shooter can use it to assist in aiming. The front sight can be painted to user's color preference or use glow-in-the-dark paint to customize the look and use of the sights. Made from SUS630 hardened stainless steel, the Strike Iron Sights For GLOCK™ is engineered to be as robust as possible while giving you one of the most budget friendly options on the market. COMPATIBILITY: GLOCK™17,17L,19,22,23,24,25,26,27,28,31,32,33,34,35,37,38,39</p>		
426-1A	SI-AR-CMAG-L	Strike Industries Angled Grip with Cable Management function - Long	<p>The Strike Industries Angled Vertical Grip with Cable Management is engineered like no other grip on the market. The grip angle sits on the handguard at 86 degrees. Patent pending SI cable management function enables you to organize and store excess wire from your weapon light or any other cabled accessories in multiple configurations. Instead of tucking wire anywhere you can and using cable ties or tape to hold it down, the cable management feature will offer you a place to route and/or contain loose wire inside the grip cavity. The side cuts at the top middle of the grip allow for easier pressure switch attachment. Compared to the Short version, the Long version has an added built-in stability feature when you place the L-shaped bottom onto a table edge/corner or as a barricade stop. Made from durable and lightweight polymer compatible with M-LOK rails, the Strike Industries Angled Vertical Grip with Cable Management (Long) gives the shooter control while handling or firing the weapon.</p>	\$19.95	\$13.10

426-1A	SI-AR-CMAG-S	Strike Industries Angled Grip with Cable Management function - Short	<p>The Strike Industries Angled Vertical Grip with Cable Management is engineered like no other grip on the market. The grip angle sits on the handguard at 86 degrees. Patent pending SI cable management function enables you to organize and store excess wire from your weapon light or any other cabled accessories in multiple configurations. Instead of tucking wire anywhere you can and using cable ties or tape to hold it down, the cable management feature will offer you a place to route and/or contain loose wire inside the grip cavity. The side cuts at the top middle of the grip allow for easier pressure switch attachment. This version can be mounted in either direction for your own preferred and personal setup and is low-profile form helps to minimize snags. The forward angle provides more of a natural wrist angle and increased rigidity of forearm. Designed with textured palm and finger areas with flat sides for positive handling and easier manipulation of the firearm. Made from durable and lightweight polymer</p>	\$17.95	\$12.00
426-1A	SI-EMP-G26-Gen3	SI Magazine Plate for Glock 26 Gen3	<p>The Strike Industries Extended Magazine Plate for GLOCK™ G26 GEN3 was designed to provide a smoother magazine reloading through a low drag / no snag design. 426-1A	SI-GRIDLOK-LITE-8.5-BK	Strike Industries Grildlok LITE 8.5" Handguard Assembly in Black	<p>The Strike Industries GRIDLOK LITE Rail For AR-15 takes innovation from GRIDLOK but this is a 1 piece design to minimize weight and offer a cost-effective option. Using the same Patent Pending Quick Rail Detach system, there is no other handguard that can be removed at home or in the field on the market today. With the Quick Rail detach system, a simple push and pull of the of the quick detach (QD) latch, you have the handguard off in seconds to make any adjustments to an adjustable gas block or installation/removal of a suppressor. The QD latch has also been redesigned with a new locking button for earlier latch locking. After some feedback from the community, the Quick Rail Detach area has been redesigned to prevent possible snagging of the QD latch. Integrated into the front of the GRIDLOK LITE is the built-in flip up backup iron sight (BUIS). Just about any M-LOK accessories can be attached and mounted along the length of the rail at 1, 3, 5, 6, 7, 9 and 11 o'clock postions giving you as many options as any handguard on the market. In the rear of the handguard you will find a integrated 360° free swivel QD socket for a 2-point setup. Rear tabs with set screws at the top the SI GRIDLOK LITE help center the top rail to the upper receiver to ensure proper alignment. Front cut in front was designed tohelp fit suppressors up to 1.5" in diameter and of course all SI muzzle devises including the SI OPPRESSOR for those looking for that tucked look. The handguard is machined from 6061-T6 aluminum and the barrel</p>	\$159.95	\$105.79

Using the same Patent Pending Quick Rail Detach system, there is no other handguard that can be removed at home or in the field on the market today. With the Quick Rail detach system, a simple push and pull of the of the quick detach (QD) latch, you have the handguard off in seconds to make any adjustments to an adjustable gas block or installation/removal of a suppressor. The QD latch has also been redesigned with a new locking button for earlier latch locking. After some feedback from the community, the Quick Rail Detach area has been redesigned to prevent possible snagging of the QD latch. Integrated into the front of the GRIDLOK LITE is the built-in flip up backup iron sight (BUIS). Just about any M-LOK accessories can be attached and mounted along the length of the rail at 1, 3, 5, 6, 7, 9 and 11 o'clock postions giving you</p>	\$169.95	\$115.86

			<p>as many options as any handguard on the market. In the rear of the handguard you will find a integrated 360° free swivel QD socket for a 2-point setup. Rear tabs with set screws at the top the SI GRIDLOK LITE help center the top rail to the upper receiver to ensure proper alignment. Front cut in front was designed to help fit suppressors up to 1.5" in diameter and of course all SI muzzle devices including the SI OPPRESSOR for those looking for that tucked look. The handguard is machined from 6061-T6 aluminum and the barrel nut is machined from 7000 series aluminum which excels in applications that require lightweight and high strength. The Strike Industries GRIDLOK LITE For AR-15 brings you features and improvements from big brother GRIDLOK but with a more lightweight and cost-effective option. COMPATIBILITY: Mil-Spec M4 upper receiver NOT COMPATIBLE: -Piston gas block, - Some billet/side charging uppers, - 11",15",17" with A2 Front Sight Post gas block</p>		
426-1A	SI-GRIDLOK-LITE-15-BK	Strike Industries Grildlok LITE 15" Handguard Assembly in Black	<p>The Strike Industries GRIDLOK LITE Rail For AR-15 takes innovation from GRIDLOK but this is a 1 piece design to minimize weight and offer a cost-effective option. 426-1A	SI-AR-CMAG-L-FDE	Strike Industries Angled Grip with Cable Management function - Long-FDE	<p>The Strike Industries Angled Vertical Grip with Cable Management is engineered like no other grip on the market. The grip angle sits on the handguard at 86 degrees. Patent pending SI cable management function enables you to organize and store excess wire from your weapon light or any other cabled accessories in multiple configurations. Instead of tucking wire anywhere you can and using cable ties or tape to hold it down, the cable management feature will offer you a place to route and/or contain loose wire inside the grip cavity. The side cuts at the top middle of the grip allow for easier pressure switch attachment. Compared to the Short version, the</p>	\$21.95	\$14.11

			<p>Long version has an added built-in stability feature when you place the L-shaped bottom onto a table edge/corner or as a barricade stop</p> <p>Made from durable and lightweight polymer compatible with M-LOK rails, the Strike Industries Angled Vertical Grip with Cable Management (Long) gives the shooter control while handling or firing the weapon.</p>		
426-1A	SI-AR-CMAG-S-FDE	Strike Industries Angled Grip with Cable Management function - Short-FDE	<p>The Strike Industries Angled Vertical Grip with Cable Management is engineered like no other grip on the market. The grip angle sits on the handguard at 86 degrees. Patent pending SI cable management function enables you to organize and store excess wire from your weapon light or any other cabled accessories in multiple configurations. Instead of tucking wire anywhere you can and using cable ties or tape to hold it down, the cable management feature will offer you a place to route and/or contain loose wire inside the grip cavity. The side cuts at the top middle of the grip allow for easier pressure switch attachment. This version can be mounted in either direction for your own preferred and personal setup and is low-profile form helps to minimize snags. The forward angle provides more of a natural wrist angle and increased rigidity of forearm. Designed with textured palm and finger areas with flat sides for positive handling and easier manipulation of the firearm. Made from durable and lightweight polymer</p>	\$19.95	\$13.10
426-1A	SI-BANGBAND	Strike Tactical Rubber Band	<p>The Strike Bang Band secures weapon light/laser cables to help organize your gear while adding an anti-slip surface on your handguard. You can flip the Strike Bang Band so the cable channel guide can be used on the outside or the inside making it reversible and</p>	\$9.95	\$7.56

			<p>adaptable for your specific setup and needs. The cable channel fits into a M-LOK compatible slots so you can keep your handguard as slim and sleek as possible. The grooves and anti-slip texture is on both sides of the band so you don't have to pick which is the best surface. The positive tactical feeling enhances your handguard with an additional gripping surface for your support hand. Organize your cables with some SI style. The 2" diameter by 0.60" wide Strike Bang Band is strong and durable for you to also use in other applications when a standard rubber band just is not enough. Use the Strike Bang Band to secure your buttstock latch or S rolling sling to keep it out of the way for vehicle use or neat storage in safe. Made of Nitrile Butadiene Rubber (NBR), it withstands heat up to 226° F. The Strike Bang Band is part of the growing line of Strike Industries Cable Management System® products that offers alternatives in cable organization and management. SI is constantly developing new parts and accessories to be a total systems provider for every aspect of your weapon. DISCLAIMER: Treat the Strike Bang Band like a traditional rubber band which can lose its elasticity over time as well as rip or tear. Not meant to be reusable for long periods of time.</p>

One of the main features is Both sides of the belt are adjustable to give the customer the ability to adjust the length but keeping the kidney cut right where they were intended to be.</p>	\$84.95	\$57.43
426-1A	SI-SIDEWINDER I	Strike Industries Sidewinder BUIS Version II	<p>The Sidewinder 2 is the next evolution of our wildly successful Sidewinder back-up iron sights. After receiving feedback from competition shooters and military personnel in the field, the sights have been upgraded to easily handle not only 5.56 but larger calibers as well as harsher environments.</p>	\$169.95	\$95.71

426-1A	SI-EMP-P320	Extended Magazine Plate for SIG SAUER P320 (9mm)	<p>The Strike Industries Extended Magazine Plate For SIG SAUER P320 (9mm) was designed to provide smoother magazine reloading through a slow drag / no snag design while maintaining maximum magazine capacity. The Extended Magazine Plate (EMP) adds plus 5 rounds (9mm) to P320 magazines. Following the success of our EMP systems for pistols, the form factor and unique geometric design gives a unified and aggressive aesthetic look to your SIG SAUER P320. Included is a steel locking plate which adds extra locking security. Give your SIG SAUER pistol the extra rounds it deserves with the Strike Industries Extended Magazine Plate (EMP) for P320.</p> <p>COMPATIBILITY: All SIG SAUER P320 magazines, Most SIG SAUER P320 grip modules, 15-round magazine with compact grip module may require filing and fitting</p> <p>NOT COMPATIBLE: 10-round magazines</p>	\$19.95	\$11.08
426-1A	SI-G5-MAGWELL-19	GEN5 Magwell for GLOCK™ G5 19/23	<p>The Strike Industries GEN5 Magwell for GLOCK™ G19 was designed to provide easier reloading of the magazine while adding SI styling. With the added front lip of the magwell, this SI magwell gives improved grip support. Keeping to the slender factory design of the pistol grip, the benefit of adding a funnel-like magwell to help prevent the dreaded reload bobble outweighs the added material of this SI G5 Magwell. Add consistency and cut fractions of seconds off your reloads now with the Strike Industries GEN5 Magwell for GLOCK™ 19 while comfortably carrying your pistol on your hip or</p>	\$19.95	\$11.08

			<p>in your waistband. Compatible with most aftermarket magazine base plates and extensions and especially with the SI Extended Magazine Plate (EMP) for GLOCK™ G19. COMPATIBILITY: GLOCK™ G19/G23 GEN5 w/ and w/o half moon cut, Designed for the GLOCK™ factory +0 backstrap. Bigger GLOCK™ factory or aftermarket backstraps may need to be modified to possibly work at your own risk NOT COMPATIBLE: GLOCK™ 19X</p> <p>WARNING: DO NOT OVERTIGHTEN set screw when installing the magwell. Overtightening the set screw will throw the magwell alignment off and also damage the magwell and/or firearm. If you are unsure, please contact our customer support team or consult with your local gunsmith.</p>		
426-1A	SI-P320-SIGHTS-STN	Strike Iron Sights - Standard Height for SIG SAUER P320	<p>The Strike Iron Sights (Standard Height) is designed to help with proper sight alignment and keep the shooter's eyes focused, there is natural light that is seen on both sides of the front sight between the u-notch rear sight. Steps placed in the rear of both sights help angle and reduce unwanted glares or reflections out of your eyes. Lines and angles designed to use natural light reflections and shadow play to keep user's eye aligned and focused on the target. Made from SUS630 hardened stainless steel, the Strike Iron Sights (Standard Height) is engineered to be as robust as possible while giving you one of the most budget friendly options on the market. FITMENTS:</p>	\$35.95	\$23.17

			- SIG SAUER P320 slides with rear dovetail		
426-1A	SI-P320-SIGHTS-SH	Strike Iron Sights - Suppressor Height for SIG SAUER P320	<p>The Strike Iron Sights (Suppressor Height) give you an elevated sight picture for a red dot or suppressor pistol setup. The front and rear sights sit at an absolute co-witness position with a slide mounted red dot. Designed to help with proper sight alignment and keep the shooter's eyes focused, there is natural light that is seen on both sides of the front sight between the u-notch rear sight. Steps placed in the rear of both sights help angle and reduce unwanted glares or reflections out of your eyes. Lines and angles designed to use natural light reflections and shadow play to keep user's eye aligned and focused on the target. The rear sight is designed with a negative angle so that the shooter will see the back wall as dark as possible to give total focus on the sights. The line running down the middle of the rear sight is there to catch light from above and create a "line" illusion in which the shooter can use it to assist in aiming. The front sight can be painted to user's color preference or use glow-in-the-dark paint to customize the look and use of the sights. Made from SUS630 hardened stainless steel, the Strike Iron Sights For (Suppressor Height) is engineered to be as robust as possible while giving you one of the most budget friendly options on the market. DISCLAIMER: Strike Industries wants to provide the best fit possible. Not all slide rear sight</p>	\$39.95	\$26.20

			dovetails are made equal, especially the many aftermarket options out there. Strike Iron Sights are semi-drop-in and may need to have some light filing to provide the most universal and proper fitment. Please watch the installation video in the MANUAL/VIDEO section of this product page. FITMENTS: SIG SAUER P320 slides with rear dovetail		
426-1A	SI-EMP-HK-VP9	Extended Magazine Plate for Heckler & Koch VP9	The Strike Industries Extended Magazine Plate for HK VP9 was designed to provide smoother magazine reloading through a slow drag / no snag design while maintaining maximum magazine capacity. The Extended Magazine Plate (EMP) adds plus 5 9mm rounds to OEM Heckler & Koch magazines. Following the success of our EMP systems for pistols, the form factor and unique geometric design gives a unified and aggressive aesthetic look to your HK VP9. Included is a steel locking plate which adds extra locking security. Give your HK pistol the extra rounds it deserves with the Strike Industries Extended Magazine Plate (EMP) for Heckler & Koch VP9. COMPATIBILITY: Heckler & Koch VP9 magazines (except SK). NOT COMPATIBLE: Heckler & Koch VP9SK NOTE: Not for sale to California residents due to 10-round state laws. The checkout process will show NO shipping method available. WARNING: DO NOT OVERTIGHTEN set screw when installing the steel locking plate. Steel locking plate may appear "loose" however when the set screw is flush with the back of the EMP body, you do not have to	\$19.95	\$11.08

			<p>tighten any more. Overtightening from this point on will potentially damage your product. See instructional video for proper installation of item. If you are unsure, please contact our customer support team or consult with your local gunsmith.</p>
